

# Cell Phone Procedures

Students may use their electronic devices during passing or during their lunch times.

Students may also use their electronic devices during class **with** the **explicit** permission of the teacher for school related activities.

Otherwise, electronic devices should be turned off and put away.

For a violation of the cell phone use policies and procedures, an administrator or designee may confiscate the device, which will be stored in a secure location, and **parent pick** up will be required in each instance. Continued violations may result in the offending student being prohibited from bringing a cell phone to school. Office hours for pick up are 7:30 am to 4:00 pm.
